SUBJECT: Shooting incident in Guard Co.

More documents are coming from NY on the shooting of Hasan DINE (Doti faction) by Ali BREGU (BKA). This may be good enough case for another plea to Army to dismiss Cawsh Basho. CPP/SE will have to give his opinion first, when the material has been received.

Munchen, 13-9-55   Secretary Balli Kombetar Organ.

Mr. Halim Begeja,

Today at 15:45 the partisan Caush Basho fired three times against a member of the B.K. Organ., Hasan Dine, whomm he wounded seriously. This took place during the time they were on patrol.

Ten minutes before guard duty was over the partisan entered 38 meters into the guard area where Hasan was and wounded him seriously. He took Hasan's rifle and broke it on the ground. The criminal wished to xxdxxxx escape but the American soldiers working nearby seized him.

The wounded man was taken to the American doctors and the partisan captured.

It is said that an American soldier saw the accident occur. Today at 16:00 I mailed a letter to you and since I am on ten days vacation, I was not on duty.

To the present, 21:30, I have not found Hasan. They say he was hit twice in the lower part of his body. I believe he must be in the American military hospital.

What we were guarding against has happened. One hundred of us had decided to resign if Caush did not. Now that this has happened and since the beating occurred earlier, nothing more remains.

                         Banush Lazellari
